

Contribution to Local Society

Contribution to cultural activities

Supporting children's art exhibition

Hoshizaki plant supports annual children's art exhibition in June. Paintings of local children are displayed in the hall of gymnasium at Hoshizaki plant. Good works are awarded by Daido and we have a commendation ceremony.

Displayed at Hoshizaki's gymnasium

Commendation ceremony

Children's art exhibition for an environmental campaign

Shibukawa plant supports annual environmental campaign through children's art exhibition in June. Paintings and calligraphy works of local children are displayed in the local shopping mall for environmental campaign. Good works are awarded by Daido.

Displayed at a shopping mall

Supporting local sports activities

Coaching amateur handball players in Tokai city

Ex-members of Daido Steel Handball club coach amateur handball players.

Amateur handball players are about 100 men and women of all ages. Daido handball ex-members are coaching them three times a month. A team of primary school girls participated in the national handball competition in August, 2001.

Coaching amateur handball players in Handa city

In Handa city, ex-members of Daido Steel Handball club coach about 80 amateur handball players three times a month.

a violinist

Preserving clean environment

Cleaning up our city

About 50 employees of Chita plant participate in cleaning up activities of Tokai city, where Chita plant is located. Participants from Daido clean up road and sites around Chita plant during the activities.

No garbage day (May 30)

"May 30" is a pun of "no garbage" in Japanese.

Therefore, we intensively clean up around the plant on that day at Chita plant.

Keeping clean around Tsukiji Techno Center

About 20 employees of Tsukiji Techno Center participate in cleaning up road and ditch around their plant especially during safety week in July and health week in October. We try to keep clean our environment around the plant by cooperating related officials.

Sweeping around Kawasaki plant

About 90 employees of Kawasaki plant sweep the road/sidewalk around their plant once in every two months.

Welfare activities

Rice farming with handicapped children

Our trainees(*) participate in rice farming with handicapped children along with the volunteers. The volunteer spirit of the trainees is nourished through the participation to these activities.

*Trainees at Daido Steel;

About hundred of high school graduates join Daido Steel every year.

We have been providing them one year of class room training before job placement.

They acquire basic knowledge and skill, suitable licenses for operation.
